

TOP TWO NEWS STORIES

FIRE!

This is at the end of our street. Our house is about 90 yards from this building. Being full of aerosol cans, there were small explosions that continued on through the night. The smoke continued for the next three days and occasionally we can still smell it. The real concern was that the building on the left would ignite. It is a deposit for tires!

Please pray for our VBS next week ! (24-29). Our whole family will be involved with various responsibilities. We shall post pictures!

Other requests:

1. Lydia's trip to Curitiba-- safety, health, as they tape the music.
2. New studies to be started. Pr. Douglas has just started a new one last evening.
3. Witnessing opportunities.
4. Health and safety during these next busy weeks.

An Adventure on the Road to Sorocaba

Monday, while taking Lydia and Benjamin to camp, our side mirror suddenly shattered! We thought it was the windshield but were grateful it was only the mirror. We thought it strange that we felt no impact. When we stopped to check it at the next gas station, Terry thought it looked like a bullet hole right below the windshield. There is also a small hole on the back side of the mirror. Two others confirm that it was indeed a bullet. So, whether intentional or not, it was a rather strange, frightening occurrence and we would appreciate your prayers for safety.

Please pray for our upcoming annual retreat during wicked carnival. Pray for all who are preparing for this ministry.
